## Sew Hot Summer Giveaway!

Celebrate this sizzling 2018 summer with JUKI! We're giving away JUKI themed goodies on our [Facebook](#) and [Instagram](#). Visit our pages for more information on how you can win! Contest ends Aug. 30th at 11:59PM EST. Four winners will be chosen.

## NEW! JUKI KIREI HZL-NX7

Continuing JUKI's characteristic of commitment to high performance and basic functions, the HZL-NX7 Kirei (kee-ray) provides a wide sewing area, touchscreen interface, and a multitude of other functions!

The HZL-NX7 was crowned with the name "Kirei" (綺麗) meaning "beautiful," as a reflection of JUKI's Japanese heritage. With captivating beauty, Kirei will bring high-quality and reliability to all of your sewing and quilting projects.

### HZL & DX Series: Oil or No Oil?

A common question we receive quite often! The HZL and DX series machines do not need to be oiled as they come lubricated from factory hence why it is not mentioned in the manual. Go figure! But there are times when you may feel the machine needs to be oiled.

Here is how:

1. Turn off the machine.
2. Remove the presser foot, throat plate, and bobbin.
3. Clean the area thoroughly.
4. Lubricated magnetic ring with 1-2 drops of sewing machine oil.
5. Take a cloth and wipe away excess oil.
6. Test the machine.

## It's time for a show!

Be inspired by test driving a JUKI at our 2018 sewing and quilt shows. We hope to see you there!
